GLENDALE, (LOS ANGELES POSTOFFICE), LOS ANGELES COUNTY, CAL., FRIDAY, FEBRUARY 18, 1921

143

HOSPITAL'S UNIT WILL BE OPENED

MUCH INTEREST IS DISPLAYED
IN PROGRAM TO BE HELD
SUNDAY AFTERNOON

OFFICIALS TO ACT

PUBLIC IS INVITED TO BE
PRESENT AND LOOK OVER
PLEASING BUILDINGS

The completion of the hospital unit of the Glendale Sanitarium and Hospital which is to be formally opened to the public Sunday, marks one step in the extensively planned improvement of the institution, this being the first unit completed of the seven for which the full plan provides. Arrangements are made for an auspicious opening, announcement of which appears elsewhere in this paper.

The new hospital as it stands at the corner of Jackson street and Wilson avenue complete in its trim, neat coat of stucco, attractively arranged both out and in and equipped with all modern and improved apparatus, is a credit to those who have had the plans in hand, chief among whom are the medical superintendent, Dr. H. G. Westphal; C. E. Kimlin, business manager; G. W. Reaser, financial agent of the Pacific Union and Southern California Conference and their associates, L. M. Hodge, architect, and H. J. Eggers, building overseer.

Controlled by Conference

The Glendale Sanitarium and Hospital is controlled by the Southern California Conference of Seventh-day Adventists, the president of which, W. M. Adams, is the chairman of the Board of Trustees with C. E. Kimlin, secretary; other members of the Board being Dr. H. G. Westphal, M. M. Hare, G. W. Reaser, W. D. Salisbury and B. M. Emerson. Besides the medical superintendent the Sanitarium staff consists of Drs. W. J. Johnson, Julia A. White, Margaret Banta and Ralph W. Maker (Roentgenologist).

The superintendent of nurses, Mrs. Daisy D. Harris, has under her direction seventy-seven nurses, sixty-two being in training while the remainder are registered nurses.

It is interesting to note that out of 331 nurses who took a recent state examination in which twenty-nine failed to pass, Miss Stella Voris, of the Glendale Sanitarium, received the highest grade of the entire 331. All are comfortably domiciled in their new home which stands just across the street from the new hospital. The dormitory is a two-story frame structure completely fitted up for the nurses and their preceptors.

Other Units To Be Built

As rapidly as the grounds can be cleared of the old buildings the other units will be erected, the next in order.

(Continued on Page 8)

BUSY ON TRACK

GLENDALE HIGH SCHOOL TO
ENTER ATHLETES IN BIG
MEETS THIS SEASON

Glendale union high school is to have a track team this year to compete in southern California interscholastic contests, according to Professor Alfred Cookman, coach for that department. The first of these meets will be held March 9. However, an interclass meet will be held on the high school campus here February 24 to test the prowess of the local athletes.

Nearly a score of boys have indicated their willingness to represent the school and their names and the events in which they will participate follow:

Edward Markey, 220-yard hurdles, 880-yard dash and 120-yard hurdles; William Farmer, pole vault, mile, high jump and broad jump; Carleton Lawson, mile and 880-yard hurdles; Willard Roberts, 120-yard hurdles; Roy Weetman, discus and shot put; F. Herman (captain), pole, hurdles, jumps and shot; Horatio Butts, broad jump and 100-yard dash; R. McCourt, high jump and 880-yard dash; Sherwood Ball, 100 and 220-yard dash; M. Horii, 220-yard low hurdles; Fred Hand, 440, 880 and 220 dashes; Robert Searles, 220-yard low hurdles; N. Beggs, high jump, discus and pole vault; James Hill, mile; C. DuBois, mile; T. Haig, 100, 220-yard dashes; R. Goodman, 100-yard dash and broad jump.

Baseball Practice Starts

Baseball practice also has started at the high school with prospects of another pennant-winning team. "Lefty" Hermann is working out for

(Continued on Page 8)

GIVES PLAN FOR DEVELOPMENT GREATER GLENDALE HIGH SCHOOL

Principal George U. Moyse Tells of Tentative
Projects for Increased Attendance

Unfolding a plan for the development of Glendale union high school, which is of vital interest to the citizens of the district which comprises Glendale, Eagle Rock, La Canada, Sunland and other adjacent territory, Principal George U. Moyse talked yesterday with an Evening News representative on the needs of the institution, as well as the results of his trip to the State High School Principals' convention which was held in San Rafael last week.

The program of the convention there lasted from Monday until Thursday when the principals adjourned in a body to the University of California at Berkeley. At the latter place they heard Dr. Wilfred T. Grenfell, the "Labrador Doctor," who is now lecturing in Los Angeles on the hospitals he has established.

Leaders in Actual Contact

Then there were reviews by the S. O. T. C. of the bay cities schools; entertainment by the University faculty at the Faculty club; visits to the schools of the bay district; and a

dinner at which the professors of the university and the principals became acquainted.

It was this latter feature of the convention which struck Mr. Moyse as something new—the actual contact of the university and the preparatory school leaders. But the dominant issues of the sessions was one which leads up to Glendale's school situation.

First there was emphasis placed on the vocational side of the high school curriculum, according to Mr. Moyse, the speakers holding that such work was offered as a basis of a try-out place for the youth and the more opportunity offered them to find the vocation for which they are fitted the better.

Reorganization of the schools of the state was another theme indicating a crisis in the present system. The high school principals agreed, according to Mr. Moyse, that the first six years of grade work is handled

CITY TRUSTEES MAKE STATEMENT REGARDING PROPOSED BOND ISSUES

Municipal Board Says That Public Should Have
Knowledge of Facts and Conditions

Declaring that they are confident a knowledge of the facts and conditions surrounding the call for the bond issues to be voted upon March 20, will be of interest to the voters of Glendale, the Board of City Trustees has authorized a statement which is published in full in this issue of The Evening News.

The statement is submitted by Dwight Stephenson, president of the board, and Mrs. Ann P. Bartlett, C. H. Henry, Spencer Robinson and A. H. Lapham, trustees.

It is probable that the statement will be issued later in pamphlet form for circulation. It follows in full:

To the People of Glendale—The following statement in regard to several propositions that are to come before the electors of Glendale on March 29, 1921, has been authorized to be published and submitted to the people in order that the necessity for the improvements contemplated therein may be generally known.

The Board of Trustees is confident

that a knowledge of the facts and conditions that have prompted this call is all that is needed to secure favorable action thereon. The propositions are:

1. Shall the city of Glendale have a Freeholder's charter?
2. Shall the city of Glendale issue \$100,000 of municipal bonds for the purpose of purchasing and laying distribution water mains?
3. Shall the city of Glendale issue \$25,000 of municipal bonds for the purpose of constructing warehouse, garage, material yards and the necessary grounds therefor?
4. Shall the city of Glendale issue municipal bonds in the sum of \$66,000 for the purpose of purchasing and improving three parks—one located in the northwest section of the city, one to be located in the southern section of the city, one to be located in the central-eastern section of the city.
5. Shall the city of Glendale issue

(Continued on Page Six)

Reading Circle Has Instructive Session

The Mutual Benefit Reading circle held its regular meeting at the library Wednesday, Mrs. A. A. Barton in the chair. Mrs. Harry Lynch had the review, which was an article taken from the Saturday Evening Post, "The Mother and Her Boy," by Mary Pulzer Clover.

Mrs. Reed Heustis reported that arrangements had been made by the program committee for a birthday celebration to be held the first Wednesday in March. This will be the fifth birthday celebration of the circle. Each member will be entitled to have one guest.

A nominating committee to nominate officers for the new year was elected, Mrs. Harry Dewey, Mrs. C. H. Pendleton and Mrs. Berrick.

It was announced that there was another new circle baby, Miss Elizabeth Sonntag. In the afternoon the reading of the book "The Essentials of Character," especially the chapter on "Social Ideals," was taken up.

Judge James Carroll Is Taken By Death

Judge James Carroll, formerly of this city, passed away at his home at 2314 Tenth avenue, Los Angeles, Tuesday. At one time Judge Carroll was owner of the transfer company now known as Robinson Brothers' Transfer. He sold his home at Louise and Lexington Drive several years ago and went to Needles, Arizona, to look after his real estate and business interests there.

About a year ago Judge and Mrs. Carroll returned to California and have been living in Los Angeles since that time. Funeral services were held at a Los Angeles undertaking parlors this afternoon.

Mr. and Mrs. Markey Here From Illinois

Mr. and Mrs. J. B. Markey of Morrison, Ill., parents of Mrs. C. O. Pulliam of this city, accompanied by their daughter and son-in-law, Mr. and Mrs. Carl Planthaber, arrive in Glendale today from San Diego. Mr. Pulliam has arranged for a furnished bungalow for their two weeks' stay here and they will conclude their winter's visit to the coast with motor trips about Los Angeles.

Mr. Markey is president of the Illinois Refrigerator factory and an officer of the Columbia School Equipment works and a stove works, all of Morrison.

All Former Service Men Asked To Come

Legionnaires, "tenshun!" Tonight's night, Hurtt's hall is the place. And a big program of ten numbers is the attraction. Refreshments also will be served.

All former service men are invited to attend this meeting of the Glendale Post of the American Legion. The disabled veterans from Thornycroft hospital will be special guests.

The program committee planning the event is comprised of Gerald Delgado, W. N. Pierce and Frank Kiefer.

Clyde Seal To Build Attractive Residence

Clyde Seal, who has bought, built and sold a number of houses in Glendale, has decided he wants a permanent home and has bought the northeast corner of Cypress and Walnut streets and is having plans drawn for a \$6,000 bungalow. The sale was made by Davenport & Strother, 217 South Brand boulevard.

Want Work? Here's Chance To Kill Off Some Musical Cats

T. A. Stephenson, one of the managers of the Glendale Chamber of Commerce membership campaign, is very accommodating in furnishing information about the city, but he was stumped when an elderly gentleman wandered into the headquarters and inquired:

"Could you tell me if Glendale has a humane society?"

"Indeed, I don't believe there is such an organization active here," replied Mr. Stephenson.

"Well, I wanted to get someone to kill the cats that got under my house at night and keep myself and family awake," was the startling information given by the stranger who wandered on his way.

Complaints on Canines

Speaking of cats, dogs may as well come in the category. Many residents of the city are complaining to the police of canine depredations to newly-made gardens, fresh-laid cement walks—and maybe, eggs, too, although that crime has not been listed.

There isn't much to be done in the matter, and as dogs are usually of a friendly and decent sort it would be grossly unfair to have regulations by which all would have to suffer for the misdeeds of the few. Perhaps the owners could corral the miscreant ones and save the police considerable worry.

Many Kicks and Drinks

Over at the high school, the athletic students who are not trying for the tennis, baseball and track teams, plan an innovation in local sports. Swimming and water polo teams are proposed. They say there's a kick in that type of contest and several long drinks, too. Some of the Glendale boys are said to show unusual prowess along swimming lines. There are others who show unusual tenacity in hanging to the life lines. Such there are in cities not by the sea and devoid of swimming pools.

Gets Eyefull of Cobb

The writer of this column had a fleeting glimpse of Irvin S. Cobb last night as he flitted about The Examiner office in Los Angeles. A green golf cap, shiny leather puttees, and a great deal in between, swinging a cane—that was the humorist as he strode past. And what a wicked knee that Kentucky boy shakes. He likely learned to step that way while reporting for the Paducah papers.

Knights Templar To Give Dance Tonight

Glendale Knights Templar tonight hold their annual Good Cheer ball at the Masonic Temple. The ballroom is being decorated to resemble a Japanese arbor and a six-piece orchestra will furnish the music for the affair. Refreshments will be served. W. W. Worley, C. L. Peckham and O. E. Von Oven comprise the committee who are in charge of this novel affair which is exclusively for the Knights and their friends.

Dr. William Bryan Is Guest Of Honor

Dr. William A. Bryan, who was recently appointed director of the Museum of History, Science and Art, was the honor guest of William Preston Harrison at the California club in Los Angeles last night. Dr. Bryan has been in Glendale recently visiting with relatives. The board of governors of the museum and the county board of supervisors were among the other guests.

Baraca Class Gives Large Stag Banquet

The Baraca class of the First Methodist church, composed of young business men, enjoyed a stag banquet last night in the church banquet room. About 150 members were in attendance. A musical program and speeches was given, the principal address being made by Dr. W. L. Y. Davis.

MILITARY FRANCE THREATENS GERMANY COLONIAL DAYS ARE PRESENTED

(Special Service to Glendale Evening News)
PARIS, Feb. 18.—France today began military preparations to compel German obedience to her reparation demands. Under terms of the allied agreement France was left a free hand in taking whatever action she believes necessary against Germany. Newspapers today pointed out that the French soon will be left practically alone in the occupation of Germany. United States troops are expected to be withdrawn soon after the new administration is in office. Marshal Foch is known to have prepared plans for all possible contingencies.

DUBLIN IS SCENE OF GIANT MAN HUNT

(Special Service to Glendale Evening News)
DUBLIN, Feb. 18.—A great man hunt was in full swing in Dublin today. A whole section of the city was cut off by troops who rushed into it in armored cars. Throughout the morning hours the neighborhood resounded with the roar of motors, the thump of gun butts against barred doors and the shout of commands. There were various rumors as to the identity of the Sinn Feiners sought, but it was generally understood that "General" Michael Collins of the Irish republican army was in hiding in the vicinity.

HARDING WOULD LIMIT LUNCHEON GUESTS

(Special Service to Glendale Evening News)
WASHINGTON, Feb. 18.—President-elect Harding wants guests at the White House luncheon, immediately following the inauguration ceremonies, limited to members of his family and has so informed President Wilson, it was announced today. Following receipt of the information, it was announced at the White House today, that neither the President nor Mrs. Wilson would attend the luncheon. Previously it had been understood they would attend.

HUGHES DUE FOR TALK WITH HARDING

(Special Service to Glendale Evening News)
ST. AUGUSTINE, Fla., Feb. 18.—Charles E. Hughes, who will be premier of the Harding cabinet, was due here today to confer with the president-elect regarding international policies of the incoming administration and appointments for posts in the state department and diplomatic service.

LLOYD GEORGE GETS VOTE OF CONFIDENCE

(Special Service to Glendale Evening News)
LONDON, Feb. 18.—Premier Lloyd George was given a vote of confidence today by a vote of 181 to 40. The vote was given on a motion to amend King George's address, implying criticism of the premier's post-war policies.

WOULD TAKE AWAY RATE FIXING POWERS

WASHINGTON, Feb. 18.—The interstate commerce commission's power of interstate railroad rates would be taken from it by a bill introduced today by Senator Kenyon of Iowa.

BIG IMPROVEMENT IN CARUSO'S CONDITION

NEW YORK, Feb. 18.—Enrico Caruso is "distinctly improved," a bulletin issued by the tenor's physicians said this afternoon.

Dr. J. E. Eckles Gets Suspended Sentence

Dr. J. E. Eckles, Glendale's city health officer, who cared for a singular case of smallpox with which an auto tourist was afflicted last December, was convicted of a misdemeanor under the state public health act yesterday afternoon in Justice of the Peace Harry M. Miller's court. He was given a 25-day jail sentence which was promptly suspended.

Deputy District Attorney George Clover, appearing for the state, set forth that Glendale's health officer had transported the smallpox patient through Los Angeles to the county pest house without the proper permit. Dr. Gerhard Kaemmerling, Chief of Police J. P. Lampert and several Los Angeles people testified as to the facts in the case. City Attorney Hartley Shaw defended Dr. Eckles' logical action in seeing that the sufferer was properly cared for, even though some technical regulation had been overlooked.

As a result of the trial and Los Angeles' health authorities' action in demanding such a strict enforcement of the law, it is said that when similarly afflicted residents of that city's annexed territory are forced to be taken through Burbank township, that Burbank and Glendale officers will be zealous in demanding that permits be taken out.

MAP FROM THE EXAMINER

The large map on page 15 of today's paper of Glendale and vicinity, showing the new short route into this city from Los Angeles, was reproduced through the courtesy of the Los Angeles Examiner.

Annexation Election To Be Held Tomorrow

Tomorrow that section of Casa Verdugo, west of Central avenue, which is not now within the corporate bounds, will vote on the question of annexation with the city of Glendale. There are 109 voters concerned and the polling place is at the James Connors place, on the southeast corner of Pacific avenue and Kenneth Road.

Much valuable foothill property is included in the district, principally the fine estates on Kenneth Road. In order that the residents of the section would thoroughly understand what annexation means, a meeting was held last night at the S. R. Dutcher home, 1320 North Columbus avenue.

Attorney W. E. Evans was named chairman by the score of property owners present and he explained the purposes of the meeting and in the general discussion which followed, City Manager T. W. Watson presented the needs of the district for water main improvements, fire protection and other service which the municipality had to offer. It was brought out that while a levy of \$1.10 would be added to the present taxes on the property affected, there would be a 51-cent deduction from the county rate, which would make a net increase in taxation there of 69 cents.

ROSENTHAL HOME RANSACKED

The Joseph Rosenthal home at 209 East Acacia avenue was ransacked by sneak thieves last night, according to reports received by the police, who are investigating the case. Numerous articles were reported stolen.

OLD TIME COSTUMES WORN
BY MANY IN ATTENDANCE
AT CLUB GATHFRING

CURIOS ARE SHOWN

VALUABLE AND UNIQUE ARE
KEEPSAKES DISPLAYED AT
AFFAIR ON THURSDAY

Despite the rain, approximately 200 ladies attended the Colonial tea given by the executive board of the Tuesday Afternoon club to the members of that organization at the Masonic Temple yesterday afternoon. American flags, pictures of George Washington, antique pieces of furniture and curios of olden days together with the Colonial costumes with their draped panniers, powdered hair and white wigs, black velvet neck and wrist bands, beauty patches and all the little details, with the old-time hospitality aided in conveying to one the spirit of the Colonial days. Many of the ladies who attended were dressed as ladies did in the 18th century. Many beautiful costumes were worn, among which were:

Mrs. C. E. Hutchinson, pale green taffeta over pink taffeta.

Mrs. Charles H. Temple, purple velvet bodice, flowered silk panniers, over pale lavender silk.

Mrs. Mabel Franklin Ocker, pink figured silk over plain white silk.

Mrs. Walter M. Stamps, pink flowered satin over blue silk.

Mrs. Mabel M. Rudy, beautiful pink satin gown with panniers.

Mrs. A. M. Hunt, blue flowered silk with solid blue collar over white silk.

Mrs. Charles E. Norton, beautiful gown of blue satin with lace fichu over pink satin.

From Great Grandmother

Mrs. E. W. Kinney, tan and pink striped silk edged with pink fringe. This gown was worn by the great grandmother of Spencer Robinson.

Mrs. Kinney also wore a beautiful black silk chintilly lace scarf.

Mrs. John Robert White, light blue satin with white organdie panniers and white lace fichu.

Mrs. W. E. Evans, green taffeta and white net, pink feathered fan.

Mrs. Roy L. Kent, as Betsy Ross, pink flowered lawn with white lace ruffles, over pink silk, white organdie apron.

Mrs. Jesse Joseph, handsome costume of flowered taffeta bodice and panniers over light green silk, white lace ruffle at neck and also at bottom of skirt, edged with garlands of tiny flowers.

At Grandmother's Wedding

Mrs. W. W. McElroy, light blue taffeta. This dress was worn by Mrs. Hale's grandmother at her wedding.

Mrs. E. W. W. Hayward, pink

CITY TRUSTEES

OFFICIAL PROCEEDINGS OF
BOARD AT MEETING HELD
ON THURSDAY NIGHT

A regular meeting of the Board of City Trustees was held February 17. The board assembled at 8 o'clock p. m. Present, Trustees Henry, Lapham, Robinson, Stephenson, Absent, Trustee Bartlett. The minutes of the regular meeting of February 10 were read and approved.

Bids Opened

Bids advertised for to be opened at this time were opened and read and publicly declared as follows:

Bid of the United States Cast Iron Pipe and Foundry company, being the only bid was referred to the engineer of the public service department.

Protests Against Los Feliz Road

The protest against the opening of Los Feliz Road were called up and there being no one present who protested against the same, on motion of Trustee Henry it was ordered that the protests against the opening of Los Feliz Road between San Fernando Road and Central avenue be rejected and denied.

Municipal District No. 3

Protests against the formation of Municipal District No. 3 and the proposed assessment district in connection therewith were called up at this time. The city engineer, to whom had been referred protests previously filed, reported that same represented 225 acres out of the total of about 1600 acres in the proposed assessment district. Dr. H. B. Crocker, property owner on the east side of

FOR SALE

REAL ESTATE
FOR SALE—New bungalow, 4 large rooms, breakfast nook, garage, all conveniences. 515 Fairmont, price \$4200, terms. Owner, 335 Patterson. Phone Glendale 417. Courtesy to agents.

PLEASE READ CAREFULLY
It is pitiful to find the many people every day looking for small places to rent who are willing to pay a very reasonable price for same, and to think that we have several small places for sale as low as \$2300 up to \$3500 that can be purchased on low terms, that will produce an attractive revenue from the investment. Why not buy one or two of these and let them pay themselves out?
This is good logic; investigate at once.

PERSONALS

Mr. and Mrs. Haroki Nitta, Brown street and San Fernando Road, are parents of a boy born February 11.

Mrs. Mary G. Moore of New Mexico is visiting her sister, Mrs. James W. Pearson of 114 West Broadway.

City Recorder F. H. Lowe this morning heard a grist of cases in which traffic law violations were alleged.

Mr. and Mrs. J. M. Lind of 318 Oak street are entertaining Dr. and Mrs. R. C. Conklin, who arrived Monday from Batavia, New York. They will be here for a week or ten days.

Lincoln Mac Seddon is the name of the son born to Mr. and Mrs. John W. T. A. Seddon of 715 1/2 East Aca-
cia avenue, February 12, Lincoln's birthday.

Mrs. L. N. Hagood of 216 North Orange street attended the Women's Lyric club program given at Philharmonic auditorium, Los Angeles, Wednesday evening.

Dr. and Mrs. Frederick Koepke, and their two children, of Watsonville, California, are visiting their parents, Mr. and Mrs. Henry Koepke, of 1315 South Central avenue. They will be here for over the week-end.

Mrs. Edith Taylor Carr and small son, Teddy, of New York City, are the guests of Mr. and Mrs. R. M. Morrow of 516 West Doran street. Mrs. Carr is a prominent singer in New York City. She and her son will be here several days.

Mrs. H. V. Brown of 144 North Orange street entertained the Matrons' Club of 1913, O. E. S., at luncheon yesterday. The guests were Mesdames Fannie Hall, J. L. Butler, Lydia Wood, Braden, Frost, Frank Asbury and Katie Law, all of Los Angeles.

Dr. Julius Soper was the guest of honor at the home of Mr. and Mrs. R. D. Jones on East Dryden last night, when about fifty gathered to celebrate his 76th birthday anniversary. There were games and music and a most delightful time was had by everyone. Refreshments were served. Sincere congratulations were extended to Dr. Soper.

Mrs. R. L. Young of 1007 North Brand boulevard entertained yesterday in honor of Mrs. Thomas Allen Box, who is the house guest of her niece, Mrs. A. C. Houghton, of Mount Washington Drive, Los Angeles, and Mrs. A. M. Carl of Kansas City, who is the house guest of Mrs. Virgil McCombs of Oxford avenue, Los Angeles, at a 1 o'clock luncheon. Guests were from out-of-town. Mrs. Box is one of the officers of the Friday Morning club.

Mr. and Mrs. George H. Warren of 640 North Maryland avenue have returned after an extended trip covering five months' time. The first stop after leaving California was in Ohio, where they visited Mrs. Warren's relatives. From there they went to Utica, New York, Massachusetts, New York City and Boston. From Boston they took the steamer to Savannah, Georgia, and from there to Jacksonville, Palm Beach, Florida, Miami and Daytona Beach. By train to New Orleans and from there to California. Mr. Warren says that business conditions do not seem to be very brisk in the east. Many of the factories are shut down.

COLONIAL DAYS

ELABORATE AFFAIR IS GIVEN
BY CLUB MEMBERS; MANY
KEEPSAKES DISPLAYED

(Continued from Page One)
flowered silk over plain green silk.
Mrs. A. M. Williams, pink flowered silk with laced bodice, white lace cap.
Mrs. P. E. Cory, blue and white figured silk over white lace.
Mrs. Colin Cable, brocade pink satin with laced bodice.
Mrs. G. H. Rowe, white linen costume similar to that worn during the Civil War period, with modified hoop skirt.

Watch 150 Years Old
Mrs. T. W. Preston, blue and white gingham Puritan costume. Mrs. Preston wore an old watch which struck the hour and half-hour. This watch belonged to Mr. Preston's grandfather, Thomas Smith Webb, and is 150 years old.

Mrs. "Spencer" Robinson, pink checked silk. This gown was worn by the great grandmother of Spencer Robinson. Beautiful white silk chantilly lace scarf.
Mrs. J. B. McClellan, pink flowered satin. Paisley shawl.
Mrs. H. C. Wilcox, green taffeta and lace.
Mrs. R. E. Chase, pink and blue silk.
Mrs. J. L. Gray, gray silk with heavy embroidery.

Mrs. Roger Bentley, yellow flowered satin over white silk.
Mrs. H. L. Baker, white net over dark green silk.
Mrs. W. H. Verity, Puritan costume of gray and white.
Mrs. Calvin Whiting, red flowered satin over red silk.
Mrs. Nell Reynolds, red silk over white lawn.
Mrs. Blake Franklin, flowered organdie.

Mrs. Mary M. Griggs, flowered organdie with beautiful silk fichu.
Mrs. W. L. Andrews, yellow flowered silk over plain yellow silk.
Mrs. John Douglas Camerer, white lace cap and fichu over black silk.
Mrs. C. W. Houston, tan taffeta with lace.

Shawl 100 Years Old
Some very old pieces of wearing apparel other than already mentioned were the white crepe shawl worn by Mrs. E. Leavitt. This shawl is about 100 years old.

Mrs. L. B. Ashton wore a black silk apron with silk chantilly lace that was worn in Scotland at afternoon teas by relatives about 150 years ago. She also wore a lace shawl which was over 200 years old.
Mrs. H. D. Thaxter wore a crocheted collar which was over 100 years old and a brooch which was worn by her mother at the time of her wedding.

Mrs. Walcott carried an old ivory fan carried by Nancy Lee Graves, her great-great-grandmother, at her wedding in June, 1780, at Appomattox, Virginia.
A wonderful display of curios were loaned by the members and included those of Mrs. Charles E. Stanley, who had charge of the exhibition. There was a feather fan owned by her grandmother, knife and fork used by her grandfather, a custard cup and plate which were brought from Canton, China, in 1785, by her ancestors, a plate of delft, brought from Holland in 1778 by great-grandparents of Mrs. Elizabeth Morris Stanley, pictures of nine generations.

Mrs. Sarah Morris, a beaded bag which belonged to the wife of the governor of New York, who was her grandmother. The bag is over 150 years old. A sugar bowl and basket which are over 100 years old.
Mrs. John Robert White, camel's hair scarf, 100 years old; spinning wheel over 100 years old.

Spoons Brought from Ireland
Mrs. T. W. Preston, porringer of hammered silver, over 150 years old; silver water pitcher made about 1760 by Pittman, co-worker with Paul Revere; Catholic prayer book, 199 years old; warming pan.
Mrs. A. M. Williams, hand-made spoons brought from Ireland in 1780; china teapot which has been in her family about 100 years.

Mrs. L. B. Ashton, war relic from Black Hawk war; powder horn which belonged to Daniel Boone with certificate as to its authenticity.
Mrs. Spencer Robinson, oil painting of Captain Wilson, who owned the first ferry boat on the Mississippi. Captain Wilson is Spencer Robinson's great-grandfather. Oil painting of Mr. Robinson's sister when she was a little child.

Mrs. Carrie Needham, pitcher and cup, 84 years old, which belonged to her mother; china bowl 235 years old; old mirror used when her grandmother went to housekeeping.
Mrs. H. E. Bartlett, old spinning wheel and flax; pewter teapot over 100 years old; old Russian candlesticks and matchbox of copper; old brass candlesticks.

Mrs. A. M. Hunt, teapot from England about 200 years old; teapot 100 years old.
Mrs. C. E. Hutchinson, parlor table of rosewood, over 100 years old, used by her great grandmother.
Miss Ainsworth, mulberry china teacup and sugar bowl, over 100 years old.

Mrs. W. E. Evans, bed spread, flax for which was raised and spun by great-great-grandmother of Mrs. Evans.
Mrs. L. P. Clover, hand-made steel thimble over 200 years old; button hole cutter which has been in the family over 100 years.

Lantern with Washington
Mrs. C. E. Norton, lantern with

LEAVE TAKING

MRS. ELLA RICHARDSON HAS
NUMBER OF FRIENDS IN
TO SAY FAREWELL

Some of the oldest, closest and truest friends of Mrs. Ella Richardson and family helped celebrate the leaving of the place they have called home for years with a community dinner.

The one long table was set the length of the dining-room through the arch and living room. Orange and green were used in the color scheme.

The dinner proved that many cooks do not spoil the broth—for all the ladies prepared the meal, which consisted of beef loaf, escalloped potatoes, Spanish beans, chicken salad, olives, pickles, celery, cheese, par-ket house rolls, layer cakes, coffee and fruit.

Music, Reading, Dancing
The evening was spent in social chatter, music, reading and dancing. Miss Doris Packer contributed several readings.

Francis Henry sang, the audience joining him in the chorus. He also gave several Scotch songs. One he composed for the occasion, inviting those present to a house warming in Mrs. Richardson's new home.

Alex Mitchell gave the Highland Fling.

Those in Attendance
The invited guests were: Mrs. John Bloeser, Mr. and Mrs. John Bloeser, Jr., Mr. and Mrs. Will Bloeser, Mr. and Mrs. Chas. Toll, Mr. and Mrs. Alex Mitchell, Mr. and Mrs. Sidney Brown, Mrs. Smalley, John Smalley, Mr. and Mrs. Edward Elias, Mr. and Mrs. Dale Vaughn, Mr. and Mrs. F. H. Vesper, Mr. and Mrs. Dan Campbell, Mr. and Mrs. John A. Logan, Mr. and Mrs. Claud O. Pulliam, Mr. and Mrs. Robert Pratt, Mr. and Mrs. O. S. Richardson, Mr. and Mrs. W. C. B. Richardson, Mr. and Mrs. Stephen Packer, Mr. and Mrs. Phillip Parker, Mr. and Mrs. Francis Henry, Mr. and Mrs. J. F. Stanford, W. A. Heltman, Miss Doris Packer, Miss Mildred Stanford, Miss Myrtle Pulliam, Miss Loraine Mitchell, Mrs. William Herman West, Frank Richardson, Jr., the hostess and her sons, Paul Eddy, John Henry, Omar Burt, and Elkanah William.

Farewell Dance Tonight
Mrs. Richardson is entertaining for her young friends tonight with a farewell dancing party.

It is not Mrs. Richardson's fault if any one has missed enjoying her old home in some way and while the new home is smaller, there is no doubt in anyone's mind but that the grand, good times will go on just the same.

Washington at Valley Forge, colonial money.
Mrs. E. W. W. Hayward, books 125 and 150 years old; treaty of peace of 1812.
Miss Hughes, snufflers, said to be Roger William's; old cork book of 1778; sampler of 1789.

Mrs. Hostford, table and solid walnut chair which was sent to her from a friend in the east. Lamp over 100 years old.
Mrs. Lockwood, sampler, the work of her great-grandmother; old colonial table from 1760.

Ford G. Abbiny, letter writing in 1731 of his great-great-grandfather.
Mrs. L. W. Bosserman, solid mahogany hand-made chair, no nails.
Mrs. Marsh, an indenture given in regard to real estate in 1772; picture brought over in 1642.

Mrs. Hollingsworth, rolling pin made by Porto Rican from material 350 years old.
Mrs. Leavitt, silhouette of her grandfather.
Mrs. Berman, ancient silver service set.

Lace wedding veil worn in 1849, carrying basket made by a Porto Rican, arm chair over 100 years old used by all the M. B. bishops up to Bishop Locke, spoon over 100 years old, paper containing notice of the death of Washington, glass cup and saucer 150 years old, silver sugar bowls and teapot, and many other articles which were not labeled as to their ownership.

Program Is Given
Bouquets of old-fashioned flowers decorated the tables from which the members of the hospitality committee poured tea and served pound cake after the following delightful program was given:
Fancy dance by Miss Jane Gay Davis

REPORTS BICYCLE STOLEN
W. W. Brewer of 604-A East Broadway reported to the police this morning that his bicycle had been stolen from the rear of Hotel Gray on Wednesday night. The officers have instituted a search for it.

DECLARES HIS INNOCENCE
SAN QUENTIN, Feb. 18.—Protesting his innocence to the very moment when the trap was sprung, Ernest Nakis was hanged here today for the murder of Edwin Taylor of Fresno.

One-third of the area of Barbados is planted in sugar cane.

MONEY TO LOAN
WILL LOAN \$2000 for 3 or 5 years at 7 per cent. T. A. Wright, 106-A East Broadway. Glendale 2116-R.

EFFICIENT AND SANITARY
The Acme market, T. E. Hurd, 113 North Brand, has completed the installation of a conveyor that is both efficient and sanitary. It is a great time-saver for both customer and cashier and, too, keeps the meats sanitary. The Acme market announces the completion of the conveyor in this issue and also publishes a number of meat specials.

SOVIET TROOPS BEING RUSHED
HELPPINGFORS, Feb. 18.—Soviet troops are being rushed into Caucasus, according to Moscow reports today. Dispatches said serious insurrections had broken out.

The railways of the nation handled more coal in 1920 than in any year except 1918, when war demands called for an exceedingly large part of the country's supply.

CITY TRUSTEES

OFFICIAL PROCEEDINGS OF
BOARD AT MEETING HELD
ON THURSDAY NIGHT

(Continued from Page One)
Verdugo Canyon Road, spoke in opposition to project claiming that the east side of the canyon does not need and will not be benefited by sewer. Those who addressed the board in favor of the proposition were Messrs. Cleveland, Chandler and Newport. On motion of Trustee Henry, it was ordered that the protests against the formation of Municipal District No. 3 and the adoption of the proposed outlines of assessment district in connection therewith be rejected and denied.

Glendale-Montrose Franchise
Mr. McFarland of the Glendale & Montrose railway company addressed the board in reference to the ordinance granting a franchise, which that company desired and the ordinance which he presented was received and referred to the committee of the whole.

Automobile Legislation
Judge F. H. Lowe addressed the board in reference to certain proposed legislation regulating the speed of autos on the highways of the state, stating that he had met with a committee of the Automobile Association and had called their attention to the serious objections which in his opinion are to be found in the proposed law. He suggested that the matter be taken up by the city attorney of Glendale with the City Attorneys' Association of Southern California and on motion of Trustee Lapham, City Attorney Shaw was instructed to attend the meeting of that association when the subject of proposed legislation comes up before it.

Automobile Drivers' Insurance
Clinton L. Booth addressed the board in regard to the bonds for automobile drivers, operating autos for hire, required by the city ordinance. He explained his understanding of liability insurance and his belief that policies issued by his agency in this connection would be found to be satisfactory.

Mr. Clark called the attention of

the board to the necessity for the improvement of Oak street stating that the Oak Street Improvement association had been formed and read a resolution which had been adopted, requesting that the trustees hold in abeyance the ordering of proposed paving. He also presented to the board a petition signed by forty-five residents and property holders along that street requesting that the city install a four-inch water main together with lateral pipes to vacant lots on Oak street. He stated that while improvement of the street is desired, the question of a better water supply is paramount. The resolution and petition were ordered to be filed and assurance was given by the chairman of the board that the matter will receive prompt attention. L. W. Ball spoke along similar lines particularly with reference to West Elk avenue, and the entire matter was referred to the committee of the whole.

Los Angeles Mfg. Co. Request
A representative of the Los Angeles Manufacturing company presented a communication from a bonding company as to the effect upon the bonding company's responsibility of the city's accepting the proposition of the Los Angeles Manufacturing company to advance 25 per cent of the contract price to the contractors and receive a 2 per cent discount.

Banner Across San Fernando Road
Mr. Brenkman, representing Mr. McLain, asked permission to hang a banner over the street at San Fernando Road and Central avenue for a few days. On motion of Trustee Henry the permit was granted. Same to be under supervision of police department and not to remain up later than February 26 and to be removed by the parties putting it up.

Communication From Alhambra
A communication was read from the city of Alhambra enclosing a copy of resolution adopted by that city in reference to the development of hydro-electric energy. In this connection on motion of Trustee Lapham a resolution was adopted instructing the city manager to attend a meeting at Riverside called for a purpose of discussing this subject and report to the board.

Permit Granted
An application from H. F. Fryer for a permit to sell milk and approved by the sanitary inspector was on motion of Trustee Henry granted.

Asks Hospital Permit
A communication was read from Mrs. M. Frances Whitney asking permit to operate a private sanitarium at 1134 East Lexington Drive. In this connection a protest was addressed to the board against granting this permit signed by R. L. Lott and a number of other residents of the district. Communication and protests were ordered to be filed.

In Regard to Zoning
Communication was presented from C. H. Thompson protesting any action along lines suggested by the zoning committee to restrict the development of business property on Brand boulevard north of California avenue. Referred to the committee of the whole.

Invitation From Hospital
An invitation was read from the Glendale Hospital and Sanitarium requesting the presence of the trustees on Sunday, next, February 20, at 2:30 p. m., at the opening of the new hospital building. On motion of Trustee Henry, the same was accepted.

Granting Permits to Remove Trees
The city manager recommended the granting of permits to remove trees by W. H. Isgrigg of 505 East Palmer avenue, and P. Jahns, 459 West Salem street. On motion of Trustee Lapham same was granted.

Statement to Public
In accordance with instructions the city manager submitted to the board a copy for proposed circular to the public in regard to the proposition to be submitted to voters on March 29, 1921, and on motion of Trustee Lapham the copy submitted by the city manager was approved and adopted and sufficient number of copies ordered to be printed for distribution to voters.

Automobile Insurance
On motion of Trustee Lapham it was ordered that bid of Arthur C. Amos for insuring the automobiles belonging to the city be adopted by roll call vote, all voting aye. Absent, Trustee Bartlett.

Demands
The demands were presented, referred to the finance committee and approved by that committee and on motion of Trustee Robinson warrants ordered to be issued in payment of the same by roll call vote, all voting aye. Absent, Trustee Bartlett.

Contract With Bannister & Day
The city attorney having approved the form of contract with Bannister & Day for the construction of the reservoir in the Grand View district, the chairman of the board and the city clerk were instructed to execute the same on behalf of the city.

City Attorney Reports
The city attorney reported the receipt of notice of hearing before the railroad commission of the case of the Midway Gas company and the same was ordered filed.

Election Ordinance
Trustee Lapham presented an ordinance calling a special election to be held on March 29, 1921, submitting several propositions for issuing of bonds for certain improvements which was read and laid over.

Trustee Lapham presented an ordinance declaring intention to change and re-establish a grade on a part of Brand boulevard which was read and laid over. He also presented an ordinance establishing a grade on a portion of Brand boulevard which

Improvement of Dayton Court
On motion of Trustee Robinson resolution of intention No. 1162 to improve Dayton Court was adopted.

On motion of Trustee Henry an ordinance abandoning an alley was adopted as ordinance No. 424 by roll call vote, all voting aye. Absent, Trustee Bartlett.

On motion of Trustee Robinson resolution was adopted as resolution No. 1163 calling a special election to be held on the 10th day of March, 1921, within the Municipal Improvement District No. 3, by roll call vote, all voting aye. Absent, Trustee Bartlett.

On motion of Trustee Henry, it was ordered that the depression in Accia avenue near Brand boulevard and a similar condition on Brand boulevard near the Southern Pacific tracks be filled up, and repaired at once; also that certain repairs needed on Brand boulevard in front of the residence of Mr. Ingraham be immediately attended to.

A BIT OF EXPERIENCE
I have met with a good many people
In jogging o'er life's varied way.
I've encountered the clever, the simple,
The crabbed, the grave and the gay.
I have traveled with bounty, with virtue,
I have been with the ugly, the bad,
I have laughed with the ones who were merry
And wept with those who were sad.
One thing I have learned in my journey,
Ne'er to judge one by what he appears.
The eyes that seem sparkling with laughter
Often battle to keep back the tears.
And long sanctimonious faces
Hide often the souls that are vile.
While the heart that is merry and cheerful
Is often the freest from guile.
And I've learned not to look for perfection
In one of our frail human kind.
In hearts the most gentle and loving,
Some blemish or fault we can find.
And yet I have never found the creature
So low, so depraved, or so mean
But had some good impulse, some virtue,
That mong his bad traits might be seen.
And, too, I have learned that most friendships
We make are as brittle as glass.
Just let a reverse overtake us
Our friends on the other side pass.
But, ah! I have found some few loyal,
Some hearts ever loving and true;
And the joy and the peace they have brought me
Will cheer me my whole journey through.
—Ella Richardson, Glendale.

GREATER SCHOOL

TENTATIVE PLANS ARE WORKED OUT BY PRINCIPAL MOYSE TO MEET GROWTH

(Continued from Page 1)
well and that the grammar schools are meeting many requirements of the higher institutions, but it is now contemplated, and actually in practice in some cities, to substitute a junior high school for the intermediate grades. In other words, the 7, 8 and 9-year classes would comprise a separate unit in the educational system, likewise the 10, 11 and 12-year classes as a high school, followed by the junior college work.

Visualizes Needs of Glendale
In the inspiring talks of Dr. Lewis M. Terman of Stanford on the subject of "Mental Tests in Educational Guidance," and Dr. Elwood P. Cubberly, director of the School of Education, Stanford, who spoke on the "Revision of Our Present School System," Mr. Moyses was able to visualize the needs of Glendale and apply them in planning the development of the schools here on conservative lines, yet with sufficient elasticity to meet the demands of the city's future growth.

Eight years ago the present high school group was planned to meet the demands of 500 to 600 students. Then there were about 350 enrolled. The people thought it sufficient for a generation, but now there are more than 1000 students crowded into three main buildings and bungalow annexes are being rushed to accommodate the overflow.

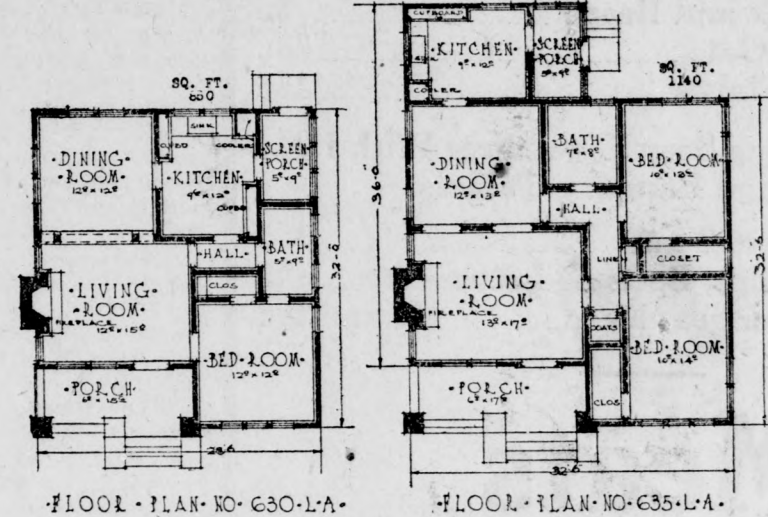

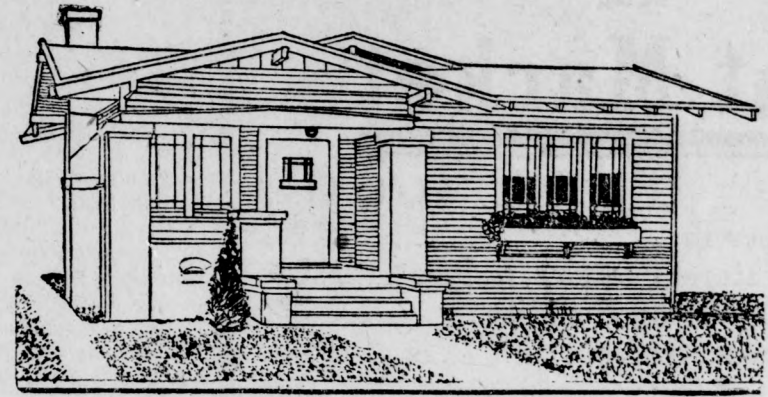

Next fall will see 1200 or more enrolled which will again fill the school's accommodations. And in eighteen months' time, if Glendale's growth is not impeded, more than 1500 should be attending. And there is the limit.

Means Another High School
Other schools have found it impractical to permit a much larger number of pupils to attend one institution. So it will mean another high school, in the opinion of those conversant with the situation.

Plans for this contingency are right now before the high school board of trustees and Principal Moyses. The result of their discussions has been to give Glendale district the most for the least. With the crowded colleges turning away students seeking higher education, it is proposed to incorporate in the new plans the junior college courses as well as giving greater attention to a vocational curriculum for those who will not go to college. Then, too, the plans include a standardization

of the intermediate studies of the district.

This is the way Mr. Moyses has tentatively worked it out:

First, there will be a junior high school to occupy the present central location which will care for all of the children of the district after they have passed the sixth elementary grade. It will offer three years' work to the children of 12 to 15 years' average age.

Second, the senior high school, with three years of advanced work, will care for the

education of the young men and women of 15 to 18. In this institution will be found the vocational courses as well as those preparing for still higher education.

Third, combined with the senior high school will be two years of junior college work which will make it possible for the youth of the city to stay at home until maturity. With two or three years in the universities they would be able to qualify for their chosen profession.

This plan involves the use of the

present high school equipment and the acquisition of a new plant for the advanced work, according to Mr. Moyses. A board member declares it logical development for Glendale by which nothing will be wasted and the most possible gained.

American steamship companies on the Pacific have informed the crews of their ships that present wage agreements will be abrogated and that wages will be reduced. Wages on the Pacific coast are said to have been slightly higher than on the Atlantic.

ISSUE STATEMENT

TRUSTEES GIVE OUT NUMBER OF FACTS IN REGARD TO COMING BOND ISSUES

(Continued from Page 1)

sue municipal bonds in the sum of \$83,000 for the purpose of constructing and equipping a gymnasium and the purchase of the necessary grounds in connection therewith?

General Statement

The last United States census sets forth the fact that Glendale has had an increase in population during the ten year period ending January 1, 1920, of 393.4 per cent. It is said that this is the largest per cent of growth shown by any residence city in the United States during that period. This rapid growth is still continuing. During the five months ending January 1 last, new services in the water business averaged over 100 per month, indicating that during that period there were approximately 100 new families choosing Glendale as a place of residence each month. During the last calendar year the building permits amounted to over \$3,000,000. This all corroborates the observation of all those acquainted with Glendale today and during the past three years that Glendale is surely one of the most rapidly growing residence cities in the land.

The growth and development of the city during the past three years has been so apparent that it is needless to mention the fact here except to call attention to that connection that this growth has brought with it problems affecting all lines of business and city service as well. This rapid growth has made necessary an increase in the facilities of all institutions that serve the Glendale public and of course this includes the municipality.

Important Problems

Your municipal government, has given consideration to the many problems that have been the result largely of this rapid growth. The most important of which are:

Development of general government organization. It has been apparent for several years to all those who have come in close touch with city affairs that Glendale has long since outgrown its sixth class city charter and should have a freeholder's charter that would give the city a larger scope of jurisdiction over local affairs and one that would give it an independent standing and individuality of its own under the law that it cannot have as a city of the sixth class. Accordingly the Board of Trustees has provided the necessary legal proceedings whereby this can be brought about. Fifteen freeholders elected by the people have framed a charter; the same is now before you and you will be called upon to decide the question of its adoption on March 29, next. It is needless to say that this movement has the indorsement of the board.

General Sewage Disposal

In regard to consideration of ways and means for general sewage disposal, including immediate relief for business section and Verdugo Canyon district, we will say that considerable publicity has already been given to this matter and we presume that it is well understood that the board has engaged Olmsted & Gillelen, sanitary engineers, to present plans for general sewage disposal that will be considered by a committee of twelve which has been appointed by the board to the end that should a plan be agreed on that has the recommendations of the committee the same will be presented to the board and through the board to the people for consideration. Definite plans are now under way for a sewage system that will take care of the sewage of Verdugo Canyon and the business district.

The board feels that sewage disposal is one of our largest problems and constructive work is being done toward a solution.

Protection by Zoning

In regard to the protection by zoning of the choice residence sections of the city from the encroachment therein of institutions that may be detrimental thereto, also the encouragement of industrial institutions to locate in Glendale by establishing zones in which these institutions may operate, will state that this matter has been given consideration by a committee appointed for that purpose and an ordinance embodying their recommendations is now in the hands of the board.

Relative to parks, playgrounds and recreation centers, Glendale, in order to keep pace with the splendid municipalities of southern California will of necessity have to have parks, playgrounds and institutions for recreation. These institutions are indispensable to Glendale as a city of homes. The board feels that it is high time a start was made in this direction. To that end the voters of the city have before them a proposition to authorize the issuance of \$66,000 of bonds for the purpose of purchasing and improving three parks.

Proposition is Enlarged

It will be remembered that on November 2 last you were requested to authorize the issuance of \$17,000 of bonds for the purpose of constructing a swimming pool in the new park on Patterson avenue. These bonds carried. Legal technicalities developed that made it unadvisable to issue these bonds or the bonds voted at the same time for recreation centers. The board in considering the matter of resubmitting the proposition took account of the fact that a great many citizens of late have expressed a de-

sire for making this issue larger and including the purchase and improvement of at least two additional parks.

Accordingly the proposition was enlarged as above stated. If these bonds are authorized it is the plan of the board to expend \$17,000 thereof as originally planned for the construction of the swimming pool in the new park on Patterson avenue, and \$5000 to finish paying for the park site, making in all \$22,000.

This park site is well situated, is about three-fourths of a mile from the business center and is less than a mile from the western boundary of the city. It can be reached by the Burbank Pacific Electric car line within a distance of about one block. It has a frontage of 814.49 feet on Patterson avenue. This street when opened and improved as planned will be one of the city's prominent thoroughfares and one of its main entrances. It is very appropriate to have a park fronting thereon.

Location of Other Parks

Two other parks will also be acquired. One of these parks will be located in the southern section of the city somewhere south of Windsor Road. The third one is to be located in the middle eastern section of the city somewhere east of Glendale avenue. The authorizing of these bonds will make possible the acquiring and improvement of three parks all of which will be situated within one mile of the business center and yet each one will be convenient for the district in which it is located. This is surely a proposition that should appeal to all the people of Glendale.

The proposition to issue \$83,000 of bonds for a gymnasium is in fact a resubmission of the proposition passed favorably upon on November 2, to issue \$83,000 of bonds for the purpose of establishing a recreation center. As stated before this resubmission is necessary on account of legal technicalities that have developed with relation to the former election proceedings. This will be set out on the ballot as proposing to authorize \$83,000 of bonds for the purpose of constructing and equipping a gymnasium and the purchase of the necessary grounds in connection therewith.

For Young People

The main object however will be the creation of a recreation center to provide an attractive place wherein the young people of Glendale and older people as well may spend some of their leisure time in proper recreation and amusement. It is planned to give first consideration to the location, construction and equipment of this recreation center. We have long talked of doing something in this regard for our young people. It is the opinion of the board that it is an opportune time for action.

There has been a crying need for public comfort stations in the main business center of the city. There should be no necessity of setting

forth argument in favor of this. That these comfort stations are needed is obvious to all who are acquainted with the situation. They should be located close to the main business center and could be built in connection with the proposed recreation center at a great deal less expense than to acquire an independent location. We do not deem it necessary to go into this matter in detail at this time feeling that ways and means will be found and taken to work these matters out in a manner satisfactory to the people of the city.

To Publish Statement

In bringing to your attention here the need for an additional \$100,000 of bonds for water distribution mains the board desires to refer to the pamphlet issued September 4, 1919, setting forth the urgent need of improvements to the water system. It was set forth in this pamphlet that \$260,000 was needed in order to make certain improvements to facilitate the developing, transmitting and storing the city's domestic water supply.

It is the purpose of the board to cause to be published at the proper time a statement in detail as to what has been accomplished with the \$260,000 bond issue. We desire to say here however that the board has let contracts for the construction and installation of the second pumping unit at the main pumping plant on San Fernando Road, the completion of the trunk line from the pumping plant to the reservoir in the mouth of the Verdugo Canyon and to the Grand View reservoir located in the northwest corner of Vine avenue and Tenth street, and for the construction of the two reservoirs mentioned. These improvements will cost approximately \$214,000 and will insure a complete water supply sufficient to take care of the present and immediate future needs of the city. The two units at the main pumping plant will produce 666 miner's inches of water.

It was estimated at the time the \$260,000 bond issue was authorized that \$33,500 of it would be available for improvements to the water distribution system. Of that amount there has been spent for cast iron distributing system main for Sycamore Canyon Road and riveted steel distribution main for East Broadway, \$18,622.20. It is also planned to expend from this issue about \$5000 for distribution main on Mariposa street and Acacia avenue. The increase in cost of water mains since this estimate was made, however, has been such that \$34,250 will not be sufficient to do all that was contemplated at the time. On the other hand the growth of the city during this period has created a demand for additional mains that should be laid at once.

For Distribution Mains

The \$100,000 of bonds asked for at the present time will be used for

distribution mains only. There are large sections of the city that have been rapidly developing. Many new services have been connected to small service mains that are not connected with the main trunk line by large distribution mains. These small mains if connected to large distribution mains will serve these districts for a number of years. Until these large distribution mains are installed the water department will not be able to give satisfactory service to many sections of the city.

A large main is needed on North Louise street. Another both north and south of the main trunk line at Doran street at Pacific avenue. A main is needed on West Broadway and should be laid before that street is improved. Another should extend in the vicinity of Concord street from Doran to West Broadway. Several mains are needed in the south and southeastern sections of the city. It is to supply these and other distribution mains that the \$100,000 of bonds is required. We again desire to call your attention to the fact that these bonds will not require the levying of a tax as the bond redemption and interest thereon will be met from the revenues of the water business.

Protection of Materials

We desire especially to call your attention to the proposition to issue \$26,000 of bonds for the purpose of constructing warehouse, garage and material yards and the purchase of the necessary grounds in connection therewith. The city of Glendale carries stock on hand in the way of material and supplies for all departments amounting to from \$16,000 to \$25,000. It is planned to construct a warehouse sufficient to store all of these supplies so that they might be put in charge of one person who will be responsible therefor.

The city of Glendale owns and operates in its various departments not including fire apparatus, seventeen automobiles and trucks and as city business increases these will have to be added to. They represent an original investment of \$13,732.76. As matters now stand there is no adequate place or means of giving these machines proper care. It is planned to build a garage large enough to house these machines and to equip in connection therewith a repair shop wherein repairs can be taken care of. It is also planned to construct stables for city teams and buildings to house tools and road building machinery of the street department. We recommend in the interest of good business and for the protection of valuable property, the issuance of \$26,000 of bonds for the purposes above mentioned.

Respectfully submitted,
DWIGHT STEPHENSON,
President.

Fair Weather Now Due, Says Forecast

The light rain storm which drenched the southland yesterday amounted to .30 inches in Glendale. His record for the season shows the total rainfall as 8.12 inches as compared with 7.98 inches last year this time. Fair weather is predicted for today and the week-end.

The department of agriculture expresses the fear that southern farmers will plant too heavy an acreage to alfalfa during the present year. The department asserts there must be an increase in livestock before alfalfa acreage can be profitably increased.

Burt Richardson Is Eli Vice President

At the annual banquet of the Yale club in Los Angeles last night Burt Richardson, son of Mrs. Ella W. Richardson of Glendale, was honored by that organization in being elected vice-president. The old Eli men were entertained by a program of speeches, including such celebrities as Rupert Hughes and James Foley.

In carrying out its studies on farming costs, the government has procured records from 481 wheat farms, 846 cotton farms, and 175 sugar beet farms. Investigations to determine the cost of raising cattle are now in progress on several hundred farms.

ORANGE BRAND Egg Mash

Does supply the necessary elements consistent with the best feeding methods in the most economical form.

Your success with the flock depends quite as much on conservation as on production, which is to say a hen meets her bodily requirements first. If she exhausts her bodily reserve now it will cost more and take longer to replace it than it will to keep it by way of proper nourishment.

It is false economy to use feeds low in calories; low in digestibility—short in practical use to the flock. It costs more to experiment than it does to feed safe.

Orange Brand Egg Mash carries years of practical experience and observation. It offers protection and service to the flock that cannot fail.

Feeds and Feeding For Eggs The Year Round

I'm Sure Started Right

"If the boss will only keep Orange Brand Chick Starter with Butter Milk and Orange Brand Chick Feed before me a few weeks and then shove in the Orange Brand Growing Chick Mash, he won't need to worry about feed bills six months from now. I will pay all bills and then some. Just ask for booklet, How to Feed Baby Chicks to Produce Heavy Layers."

TRIBUTE IS PAID

WIDOW AND FAMILY OF LATE
H. V. POORE PAY RESPECTS
TO HIS MEMORY

Funeral services for H. V. Poore, who died February 13 as the result of a fall, were held yesterday afternoon at the Little Church of the Flowers.

Henry Hamlin Vanamringe Poore was born July 2, 1845 and died February 13, 1921. He was born in northern Ohio. His mother died when he was four years old. He was raised by a religious sect called the Shakers until he was 16 years old, when he left them and made his way in the world. He moved to Missouri where he met and married Miss Caroline Augusta Hibbard, February 20, 1871, at De Soto, Jefferson county, Mo. He moved to Lawrence, Kan., then back to Lawson, Mo., upon the death of his wife's father.

While at Lawson three children were born, Orson Birney, Irene Estella and Charles Delos.

He moved from Lawson to Warren county, Ohio, in April, 1876 and remained there until October, 1877, when he moved to Renville county, Minn. While in Minnesota three children were born: Emerson Almon, Ianthe Emma and Pearl Marie.

All Living Except One
All the children are living with the exception of Irene Estella.

Mr. Poore moved to Glendale in November, 1918, where he resided up to the day of his accidental death.

The couple would have celebrated their golden wedding anniversary on February 20, 1921. He was a member of the Minnesota State Horticultural society and for two years was state bee inspector and was a member of the Minnesota Territorial Pioneers.

Tribute Is Paid
A tribute to the memory of our dear husband and father, from his wife, children and grandchildren:

The keynote of his life was usefulness.

He was the kindest father and husband anyone could ask for. He loved children and was called "Grandpa Poore" by all the children that knew him. He had a wonderful sympathy for everyone in trouble. He never did a selfish thing in his life. He never held any ill-will toward those that differed with him in opinion. He forgave all those who tried to injure him and never retaliated. He always tried to return good for evil. He never would punish his children if there was any possible way to avoid it and he tried reasoning before any other method. He craved affection and gave affection freely. He seemed to try to his utmost to give the love and affection to his family that was denied him in his youth. He lived a clean and pure life. His children thank both their father and mother for the two greatest blessings that parents can bestow, good clean, strong healthy bodies and minds.

Never Shirked Any Work

He never shirked any work that fell to his lot and often did beyond his physical strength. He was a fearless fighter for liberty of mind and body. He loved the beautiful in nature and was always trying to improve trees and flowers. He made friends everywhere he went. He was ever a seeker after knowledge. He wanted his children to have the advantages of an education that was denied to him in his youth. He was always young in spirit and ready to try new things. He was kind of heart and wonderfully sympathetic. He loved the truth and could not grasp the inability of the average mind to see a truth when presented. He would enlist in any cause that promised betterment for humanity. He never complained, no matter what the adversity. His motto was "The greatest good for the greatest number." He fought for the ideas he thought just and right, fearlessly, without malice or rancor. Millions have gone before, millions will follow, and still other millions take up the cause until reason and justice shall hold sway over all the actions of the human race.

Glorify in His Success

When that day arrives, and then only, will the words, love, beauty and happiness have their fullest meaning. He has gone before, his life's work completed, nothing left undone through lack of effort, a life rounded out by untiring effort, usefulness, and the greatest love for his fellow man. Can anyone ask for greater success? What a wonderful crowning for a short step in a long journey, that has no beginning, no ending, but ever tends toward greater beauty and perfection, greater love and happiness. While we should like to have had him with us longer, so that we could have shown him a greater measure of love and affection, we glorify him in his success and only hope that our lives may be crowned with as great a measure of success. What greater tribute to his memory, than to take up his work where left off and continue to strive for the same ideals. He wished us not to mourn, but to love, and comfort one another, show affection and strive for the greatest measure of usefulness.

We shall try to the best of our ability.

"No life can be pure in its purpose and strong in its strife without all others being purer and stronger thereby."

MRS. C. A. POORE AND FAMILY.

Queen Elizabeth had naval medals made to commemorate the destruction of the Spanish Armada.

ORDINANCE NO. 424

AN ORDINANCE ABANDONING ALL PROCEEDINGS FOR THE WIDENING OF A CERTAIN ALLEY, IN THE CITY OF GLENDALE.

The Board of Trustees of the City of Glendale do ordain as follows:

Section 1. That all proceedings for the widening of that certain alley in the City of Glendale which lies between Harvard Street and Colorado Street and is 120 feet more or less east of the east line of Brand Boulevard from the south line of Harvard Street to a point 107.24 feet southerly therefrom, as contemplated by Ordinance No. 386 of said City, passed on the 3rd day of June, 1920, and entitled, "An Ordinance Declaring the Intention of the Board of Trustees of the City of Glendale to Order the Widening of a Certain Portion of the Alley East of Brand Boulevard Between Harvard Street and Colorado Street" are hereby abandoned and said Ordinance No. 386 is hereby repealed. That Ordinance No. 393 of said City of Glendale, passed September 10, 1920, entitled, "An Ordinance of the City of Glendale Ordering the Widening of a Certain Portion of the Alley East of Brand Boulevard between Harvard Street and Colorado Street as contemplated in Ordinance No. 386," and Ordinance No. 407, passed October 27, 1920, and entitled, "An Ordinance of the Board of Trustees of the City of Glendale Extending the Time for Filing an Action in the Superior Court for the Condemnation of Property for the Opening and Widening of a Certain Alley East of Brand Boulevard between Harvard Street and Colorado Street" are hereby repealed.

Section 2. The City Attorney is hereby directed to dismiss without prejudice that certain action brought to condemn the property necessary for the above mentioned widening now pending in the Superior Court of the County of Los Angeles, State of California, and entitled, "City of Glendale, a Municipal Corporation, Plaintiff, vs. Henry M. Butts, et al., Defendants," being No. B-88159 in the files of said Court.

Section 3. The City Clerk shall certify to the passage of this ordinance and cause the same to be published once in the Glendale Sentinel-Progress, a weekly newspaper published in said City of Glendale, and

BUSY ON TRACK

GLENDALE HIGH SCHOOL TO ENTER ATHLETES IN BIG MEETS THIS SEASON

(Continued From Page One)

the pitcher's box. He started on first base last year. McDonald, at shortstop, Dennison and Meriken behind the bat, Dale Wood on the mound, and McNary at second base are among others of last year's lineup. Farmer, Johns and Harry Wilson are after infield positions while Weetman, Sibera, Meeker, Percy and Dubois are likely looking candidates for garden spots.

Normal C. Hayhurst is coaching baseball. If he can make arrangements, a second team will be entered in the San Fernando Valley league while the first team will play its schedule in the County Central league—which Glendale led last year.

The valley league is just being organized and includes Burbank, Van Nuys, Lankershim and San Fernando. The basketball season draws to a close for Glendale High school when the local quintet meets South Pasadena's on the latter's court at 3:30 p. m. Quite a delegation is accompanying the team.

Tennis, however, is attracting the athletes to other courts and Morgan, McDonald and Johns of last year's team are looking for a couple hard-servicing racket wielders as pace setters for the coming league games with a view of winning the pennant again.

C. J. Tilden, professor of engineering mechanics at Yale University, has been granted leave of absence for a year in order to accept a position as director of highway and highway transport education committee. The committee includes representatives of all governmental, educational and industrial groups interested in the advancement of highways.

Table d'hote and a la carte service. All home cooked meals. Private dining room for luncheon and dinner parties and young banquets. Please phone for reservations in advance for private dining room. Glen. 1275-W

Attest: J. C. SHERER, City Clerk.

STATE OF CALIFORNIA,)
COUNTY OF LOS ANGELES,)
CITY OF GLENDALE.)

I, J. C. Sherer, City Clerk of the City of Glendale, do hereby certify that the foregoing ordinance was duly adopted by the Board of Trustees of the City of Glendale, State of California, at a regular meeting of said Board held on the 17th day of February, 1921, by the following vote, to-wit:

Ayes: Henry, Lapham, Robinson, Stephenson.
Absent: Bartlett.
Noes: None.

J. C. SHERER, City Clerk.

HOSPITAL'S UNIT

PUBLIC IS INVITED TO BE PRESENT AT OPENING ON SUNDAY AFTERNOON

(Continued from Page One)

der contemplated being unit number three, a two-story building for medical patients. Thus filling in with new and taking out the old, the Sanitarium block will eventually present an entirely different aspect and with its multiplied facilities will be able to accommodate the many who are now daily turned away for lack of room.

Retrospection reveals the fact that the sanitarium building proper first came into existence in 1887 as a hotel, next serving as a young ladies' seminary under the name of St. Hil-da's Hall. A little later a high school was made of it and for a few years the place was in the hands of a care-taker.

Purchased in 1904 It was purchased by the present owners in 1904 and completely remodeled and enlarged; since which time it has sought to dispense not only instructions to its training classes and health to its guests but also good-will and fellowship to the townspeople at large.

The Glendale Sanitarium and Hospital is famous for its rational methods of treatment which comprise not only the administration of Hydrotherapy, Electrotherapy, Heliothera-

py, Massage, Dietetics, Manual Swedish movements and Physical Culture, but also instructs the patient in the simple yet seemingly intricate art of doing the ordinary things of life in the best possible way.

Keynote Is Simplicity Excluding medical and dietetic fads it strikes the keynote of simplicity in habits, a return to nature in principle—the utilization of those great powers which create and maintain all living things and which alone can cure.

The public is cordially invited to be present at the opening Sunday afternoon at 2:30 at which time prominent officials of the Sanitarium and representatives from Glendale and elsewhere will take part in the program, after which the new hospital and also the nurses' dormitory will be open to visitors who may wish to see the model arrangement of the buildings together with the equipment which in many instances is ultramodern.

OUT OF ORDER

"The next one in this room that speaks above a whisper will be put out," exclaimed the angry judge. "Hip, hip, hooray!" shouted the prisoner as he ran for the door."

CAN BE DONE

Willie: "Can you take eight from one?"
Teacher: "No, Willie, certainly not."
Willie: "Well, father said you can—eight quarts of milk from one cow."

FIRE PROTECTION

PACIFIC MINERALS & CHEMICAL COMPANY ASKS CITY FOR WATER INSTALLATION

Protection against fire by the installation of a water system is asked of the city of Glendale by the Pacific Minerals & Chemical company, just west of the Southern Pacific tracks and close to the city's boundary line.

It is estimated that it will cost about \$2,000 to install a water service and the company, it is said, has offered to pay the bills. T. W. Watson, city manager, at the last meeting of the Board of City Trustees brought the matter to the attention of the board in the following communication:

"We have received application from the Pacific Minerals & Chemical company for installation of water service for fire protection at their plant which is situated just west of the Southern Pacific tracks adjacent to the west boundary line of the city. 'Should your board decide that such service should be rendered if practicable, we would be glad to submit a report as to cost thereof, including additional water mains, fire hydrants, etc.'"

Discussion Takes Place

The matter was discussed by the trustees and President Stephenson pointed out that should a fire break out at the plant the city's fire department would be expected to respond. Trustee Lapham stated that a number of residents of Glendale are employed at the plant.

It was finally decided that the city manager write to the company after securing an estimate of the cost and obtain an agreement so that all expenses be met by the concern. Trustee Henry made a motion to this effect and it carried unanimously.

A rough estimate shows that the cost of proper fire protection will be about \$2000, including extensions, water mains and hydrants.

Warns America That Army Must Be Ready

PARIS—The United States must be ready to rush 4,000,000 troops to France if the Germans and Russians attack, warns General Renaud, professor in the Superior War school, in the French press. Such an attack is easily possible, he says. The occupation of the Rhine district does not protect France, General Renaud asserts, because hordes of Russians could wipe out the bridgeheads at the right bank of the Rhine, despite losses, while the Germans could cross Holland or Switzerland and attack the allies in the rear.

General Renaud makes the first official admission that the Germans inflicted heavier losses on the allies on the west front than they sustained, saying the Germans lost 2,000,000 men, the same number as the French. Great Britain lost 600,000, Belgium, 25,000; America, 55,000, and Russian, Portuguese and Italian allies 25,000, making a total of 2,705,000 allies killed on the French front alone. Thus, General Joffre's statement that "this is a war of attrition" is exploded as the Germans inflicted heavier losses throughout than the allies.

Rebuilding Old Town Of Abraham Lincoln

PETERSBURG, Ill.—Work is being rushed here on the reconstruction of the deserted town of Old Salem, where Abraham Lincoln spent much of his early life. Five of the original buildings of the town have been copied and are complete and the work is progressing on the remaining twenty-five buildings. Judge G. E. Nelson, president of the Old Salem Lincoln league, is directing the work of laborers furnished by the state. The state legislature recently appropriated \$50,000 for the reconstruction of the town. It was at Old Salem that Lincoln studied law. Ann Rutledge, the sweetheart whose death is said to have tinged Lincoln's whole life with sorrow, lived and died at Old Salem.

Print Cost Up 200 Per Cent, Is Claim

HARRISBURG, Pa.—In an address before the American Newspaper Publishers' Association, T. R. Williams, president of the association, declared that increased cost of printing necessities advanced advertising charges in order to match expenses. He said that before the war advanced the cost of paper and other printing materials, advertising prices were too low, and that they have not increased in proportion to the increased costs of publication, which, he said, have advanced 200 per cent.

In no case has there been a decrease in labor scales made in the last sixty days, but nearly all of them called for substantial increases, some as much as 20 to 30 per cent, he said.

Williams contended that there can be no hope of reducing skilled labor required by newspapers for years to come, and that while spot news print prices are softening, the contract price of 6 1/2 cents a pound is the highest in twenty-five years.

"It is certain," he said, "that contract news print prices will remain permanently higher than before the war. Advertisers who know newspaper conditions are not asking for a decrease on advertising rates, as they know that at present rates their advertising space is the lowest priced commodity they buy."

REFUSED HIM KISS IS CLAIM

CINCINNATI—Claiming he spent his leisure moments with another woman, Mrs. Elsie M. Koch asked for a divorce from Albert G. Koch, local real estate man.

Denying the accusation of his wife, Koch told the court he put out the lights in his wife's room at a hospital so that the attendants would think he had gone and remained at his wife's bedside beyond the time permitted by the hospital rules. He then asked for a divorce.

He charged that repeatedly since three days after their marriage which took place thirteen years ago, his wife told him she "made a mistake" in marrying him and did not love him.

Once he tried to kiss his wife, he said, but she pushed him from her and "would not allow it."

OFFER OF PRIZE

FEDERATION OF MUSIC CLUBS
TO GIVE HONORS BEHALF
BEST COMPOSITION

The California Federation of Music clubs, of which Mrs. Mattison B. Jones of 208 South Brand boulevard, Glendale, is the first vice-president and chairman of the extension and junior clubs, announces that it will give a prize of \$300 for the best chamber music work: Trio, quartet or quintet for strings and piano in three or four movements, written by a California resident composer. Two things are declared absolutely necessary. First, that the best, most experienced writers of music among California composers enter the competition. Second, that there be a rigid adherence to the highest standard of excellence in the bestowal of awards. Therefore, the committee of American music of the California Federation of Music clubs feels justified in stating that unless the manuscripts meet the requirements of a prize composition as to excellency and superiority and have the unanimous vote of the judges, the awards will be withheld.

Prize for State Song

The competition is only open to composers who have been residents of California for at least one year and who are citizens of the United States. The prize composition will be published and given a public hearing at the fourth annual convention in 1922.

The California Federation of Music clubs also offers a prize of \$25 for the best words submitted for a state song. The librettist must be a citizen of the United States and a resident of California for at least one year to be eligible. The prize poem will later be offered for a musical setting and a prize of \$50 offered for the best setting for the state song. The poem should be in the hands of the committee not before August and not later than September 1.

Faces Inauguration Day Without Fearing

WASHINGTON—With a hundred million rats at large, one non-civil service employee of the post office department faces inauguration day unafraid. His job is safe to the end of his nine lives, the authorities declare, while Old Tom, official rat catcher by appointment of former Postmaster General Hitchcock, heeded his chops and looked wise. The cat has been on duty twelve years and is prepared to give the new boss points when it comes to "smelling a mouse," and that's part of a postmaster general's job.

The Brazilian embassy has announced that the population of Brazil is now more than one-fourth that of the United States.

THIS IS MILLER— He Is a Glendale Man— He's Not in the Insurance Trust

What's the Advantage of Board Insurance?

ABSOLUTELY NONE

The stability and ability to pay of every fire insurance company rests entirely upon its own financial resources. The board gives you no additional guarantees or protection in the event of loss, and each company stands alone, whether belonging to the board or not.

Before being admitted to California, every insurance company is required to furnish essential data to the insurance commissioner, and submit to a rigid examination of its assets and liabilities. Furthermore, they are in no instance allowed to issue policies in California until affidavits as to their sound financial condition have been made and checked by the commissioner of the state in which their charter was granted. It then becomes optional with them whether they affiliate with the board of fire underwriters or carry on their business independent of that organization.

What does it mean to you to know you are dealing with a firm of long standing and good business reputation, when you want to buy or sell real estate—when you want insurance—when you want to loan or borrow money?

If you insure with the Hole in the Wall insurance man, who is here today and gone tomorrow, when you wish to transfer your policy or cancel it, you will find yourself in difficulty. Policies of this character are called to our attention frequently.

And What Is More Is Not Going Into Any Kind of a Trust

You will notice advertisements most every day, "Insure with us, we have an old and tried BOARD company." That means in the trust. "We will make as low rates as anyone." And you go to them and get stung. You don't know it at the time but find it out later. Why do insurance companies go into a combine or trust to boost and get high rates? Now we handle eight first-class non-board, independent companies. If you have a loss with us you are dealing with only one independent company. Your loss is quickly adjusted and you get your loss at once. But if your loss is in a trust your company has nothing to say. You have to deal with the board or trust. Does it look reasonable that an adjustment would be made quickly?

RIPE AND DANGEROUS

First-Class Scout: "I found a little green snake this morning."
Tenderfoot: "Better leave it alone. It might be as dangerous as a ripe one."

Labor Solution Rests On Mutual Good Will

CLEVELAND, O.—No lasting solution to the labor problem can be evolved unless the remedy is founded firmly on mutual good will. President Charles F. Thwing of Western Reserve university said on his return from an investigation of labor conditions in Australia and New Zealand.

Labor itself is incapable of solving the problem, he said he was convinced from a thorough examination of the labor government of Australia. Strikes, ill-feeling and general dissension exists there to a larger degree than in the United States, he said.

The work of finding some means of satisfying and pacifying labor must be started from the human and moral, as well as the economic angle, he said. No instrument based on the economic view alone will be workable, he said.

Laws cannot prevent strikes and arbitration will not end them, he said.

"The labor problem is more human and moral than economic," said Thwing. "It will not be solved until there is a manifestation and earnest practice of good will on both sides."

"Australia is a labor government. The prime minister formerly was a labor leader. Other government officials have been connected with the labor movement. With all of this, there is more ill-feeling, dissension and more striking than in America. The working men are well organized. The unions make demand after demand. As soon as one wage increase is granted, the unions prepare the ground for another. This is particularly true in those mines owned by the government."

The frequent wage demands are usually granted until the public, restive under the burden of increased prices, calls a halt. The same conditions exist in the shipping industry, Thwing said. Boats are held up for weeks at a time while dockworkers, stevedores and other ship workers wrangle with the owners for higher wages.

ISSUES FAMINE STAMPS

If you have been reading the newspapers you know that there have been death and distress from famine in China. To raise funds to save men and women and children from starvation the Chinese government has surcharged some of the Chinese stamps as a charity series; these are sold for extra sums which go into these funds. Thus if you, an American boy, pay 2, 3 or 4 cents for one of these stamps, you are indirectly paying that much money toward helping the famine-stricken people of China.

Old Dobbin Doesn't Need Any Sympathy

CALGARY, Alta. — Sentimental folk have shed many tears over the ultimate fate of the horse, which, they believe, will disappear before the motor-driven vehicle. But H. S. Arkell, livestock commissioner of Canada, declared at the recent congress of the Western Canada Livestock union here that those who have tears to shed would better shed them over the ultimate fate of the motor vehicle, especially on the farm.

"Mechanical power," said Arkell, "will never supplant Old Dobbin on the farm. Far from falling off in numbers, the horse population of the continent is increasing. I look for a steady development in horse breeding that will seriously affect the automobile and truck business. Motor trucks are a valuable asset in the world's work, but there are certain kinds of work not only on the farm but in the city which trucks can not do and which only a good team of horses can do. Don't be afraid that the horse will join the dodo and pterodactyl in extinction. He will continue forever to be numbered among the most important factors in human labor. As the world's human population increases, the horse population will keep pace with it."

According to reports issued by the department of agriculture, there has been a pronounced increase in the number of cow testing associations in the United States during the last year.

Traces of blood 6000 years old have been found in mummies.

Shop Windows Filled With American Goods

ATHENS — America's popularity is one of the most patent things in Greece today.

Shop windows are filled with American wares—safety razors, American patent medicines, sewing machines, musical instruments and other necessities and luxuries. On the street one rides in an American automobile and three-fourths of them are "flivvers."

Movie shows display almost entirely American films and Charlie Chaplin, Mary Pickford and Douglas Fairbanks head the list, while Greek five ten and twenty-five drachma notes, printed in America from the chief legal tender visible.

During the Constantine festivities American flags were displayed probably more profusely than all the rest of the allied powers together.

At the present time Greece is flooded with Graeco-Americans. The gendarmerie contains scores of Greeks who have spent many years in America. All speak English fluently and the majority are determined to return to America as soon as the emigration bars are lifted. Their vision of the future is embodied in the words of one John Paparagopolos, captain of police.

"Yes, suh: Ah suttinly is gwine back to America soons Ah cahn make de grade. Ah been homesick for a long, long time."

John spent four years heaving cotton bales on the wharves of New Orleans. That's where he got his language.

Arabs have exceptional memories.

LEAVING GERMANY

ABLE-BODIED MEN PREPARING
TO EMIGRATE; BERLIN IS
WORRYING, IS CLAIM

BERLIN—Students of economic subjects assert that at least 5,000,000 Germans are preparing to leave the fatherland for the United States, Mexico and South American states as soon as they are able to raise passage money, or obtain admission in the case of the United States.

A majority of the would-be emigrants have expressed a preference to go to South America.

Official and unofficial quarters have displayed considerable uneasiness over the class of men who are now emigrating or preparing to emigrate. The head of the government immigration office said:

Many Reported as Leaving

"The most able-bodied, enterprising, stalwart sons of Germany are leaving. The very poor, the communists, the radicals, the bolsheviks, generally are remaining with us. It is the family of some substance which is moving out."

One cause of this emigration is conceded to be the war taxes and particularly the income tax, which virtually prohibits the salaried man from laying aside something for the rainy day. These men generally no longer patronize the banks. They are hoarding a little bit of salary each month, against the day they can emigrate.

New Law Being Formed

In spite of the general agreement among political economists that Germany is overcrowded and that unless radical readjustments are made within one year the nation will be able to support only 50 per cent of the present population, suggestions have been made that the government take immediate steps to regulate the number and quality of emigrants. With this in view, a new law is being drafted.

It is argued that this tide of emigration could be turned back upon Germany to good purpose. Germany's arid lands, if irrigated or drained, would be capable of supporting 10,000,000 additional persons, it is stated, and the government has been urged to make these lands available to the numbers now flocking into the cities.

Boy Born To Couple Accused Of Slaying

WHEELING—A ten-pound boy, the first child to be born in the Ohio county jail in twenty years, is a guest at the prison. The parents, Mr. and Mrs. Antonio Saratoria, are being held without bond in connection with the killing of James Augustus.

Big Colony Proposes Large Land Purchase

WINNIPEG—A Winnipeg newspaper published a story that 162,000 Mennonites of Manitoba are planning to migrate to southeastern Mississippi, where an agreement has been made for the purchase of 125,000 acres of land. The Mississippi governor has promised "every religious and educational freedom demanded," it was stated.

NOTICE OF DELINQUENT ASSESSMENT AND SALE

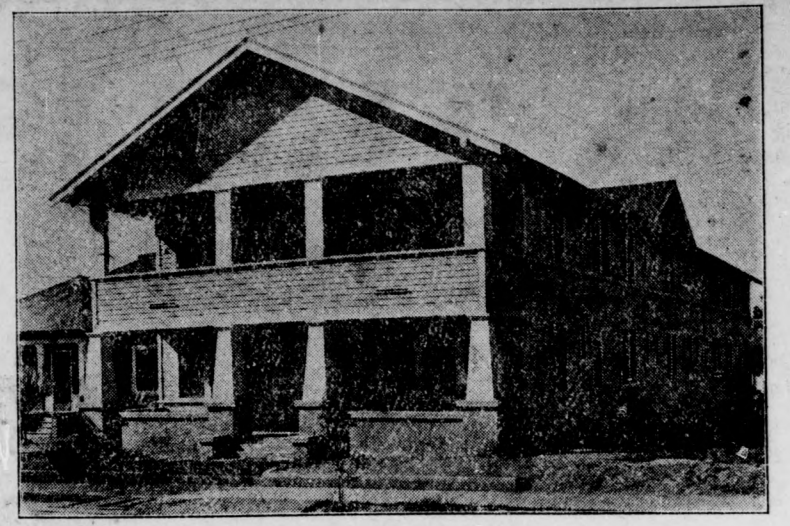

Public notice is hereby given that the following assessments for the laying out and opening of Orange Street as contemplated in Ordinances Numbers 347 and 354 became delinquent on the 28th day of January, 1921, and unless each such assessment delinquent, together with the penalty and costs thereon, is paid on or before the 28th day of February, 1921, the property upon which assessment is a lien will be sold at public auction on the 28th day of February, 1921, at 10 o'clock a. m., in front of the office of the Street Superintendent of the City of Glendale, at the City Hall, 619 East Broadway, Glendale, California:

HOSPITAL UNIT

NURSES' HOME

The Board of Trustees of the

Glendale Sanitarium and Hospital

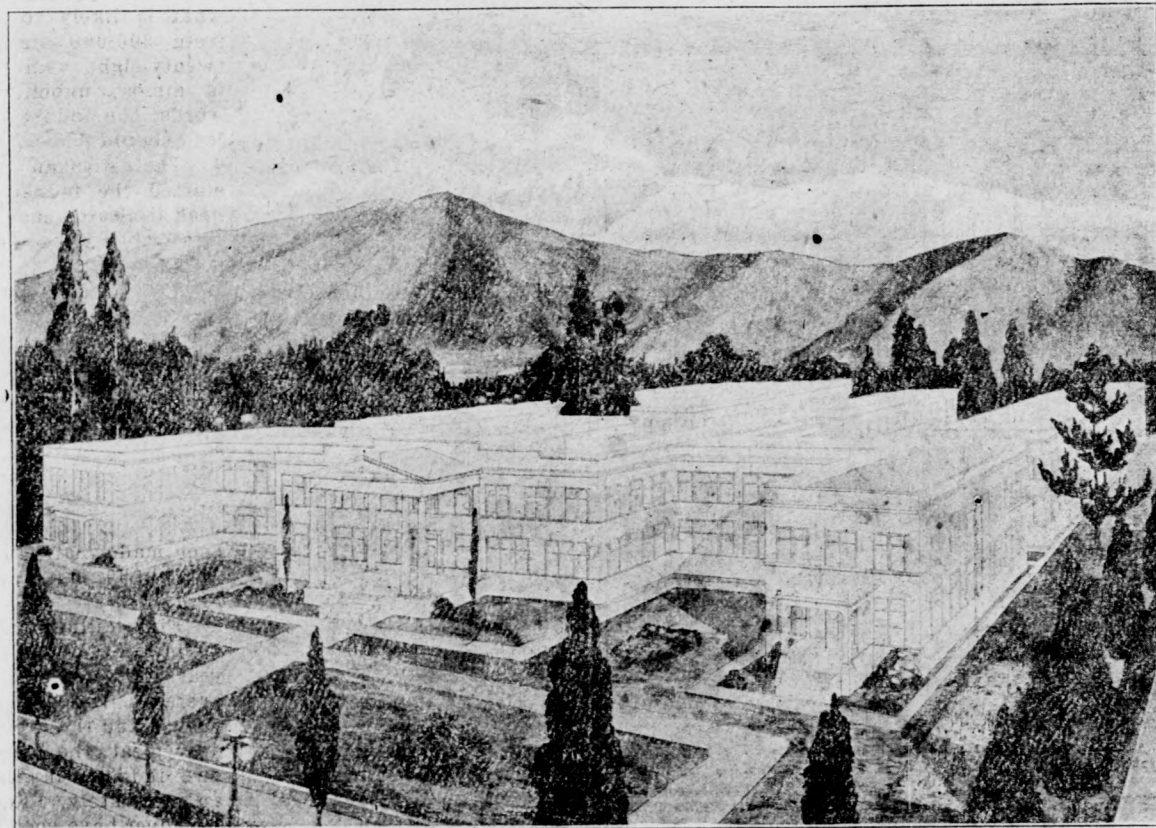

announce the opening of the

New Hospital Unit, cor. Jackson Street and Wilson Avenue

Sunday, February 20, 1921, 2:30 p. m.

A program will be rendered in which prominent officials of the institution and representative men of Glendale, Los Angeles and vicinity will take part, and the hospital, together with the nurses' new home, will be thrown open for inspection. The public is cordially invited.

Hours for Inspection, 3:30 to 5:30 p. m.

GLENDALE SANITARIUM AND HOSPITAL AS IT WILL APPEAR WHEN FULLY COMPLETED

Former Governor Is In Oregon Faculty

EUGENE, Ore.—R. P. Bass, ex-governor of New Hampshire, has arrived from the east to join the faculty of the University of Oregon here in the department of economics. During the spring term he will teach industrial relations, industrial arbitration and other subjects having to do with labor.

Wife's Woolen Hose Cause Of His Woes

KANSAS CITY—With bills for five hats staring him in the face, a one-year-old doctor bill unpaid and general financial debility oppressing him, a young man was summoned into the free legal aid bureau to explain why his wife was about to sue for divorce on the grounds of non-support.

"I am supporting my wife," the young man told W. J. Burke, legal aid attorney. "She has become enraged simply because I refused to allow her \$5 for a new pair of woolen hose. Now all her other hose are flimsy silk, but my wife wants one pair of woolen hose for an occasional change. Hence my doctor bill for influenza."

"Last year she did the same thing: Wore a pair of silken hose one day and a pair of woolen hose the next. Influenza was the result."

"Let her sue," ejaculated Mr. Burke. "Your case will stand."

I. O. O. F. MEETING

Notice of Public Work

Public Notice is hereby given that the Board of Trustees of the City of Glendale on the 3rd day of February, 1921, did at its meeting on said day adopt a Resolution of Intention No. 1158, to order the following improvement to be made on a portion of that certain alley in Tract No. 2292.

SECTION 1. That the public interest and convenience require, and it is the intention of the Board of Trustees of the City of Glendale to close up, vacate, and abandon for street and alley purposes, all that certain portion of that fifteen (15) foot alley in Tract No. 2292 as per map recorded in Book 23, Pages 106 and 107 of Maps, Records of Los Angeles County, California, more particularly described as follows:

All that portion of that first alley east of Canada Boulevard, from the northerly line of Hiawatha Drive to the southerly line of Wabasso Way, said alley being one hundred and sixty (160) feet easterly and parallel to the easterly line of Canada Boulevard.

The district to be assessed to pay the damages, costs and expenses for the described improvement is described in and reference is hereby made to Resolution No. 1158 for further particulars of said work.

EAT REINDEER

INFANT INDUSTRY OF ALASKA
TO BE AIDED; INCREASE
IN HERDS REPORTED

WASHINGTON — Santa Claus' reindeer have promise of becoming a factor in the meat supply of this country, as they are in Scandinavia, where reindeer meat last year sold at a higher price than beef or mutton.

And the government is going to aid in putting the infant industry of Alaska on its feet by experiments in increasing the reindeer's weight to about double its present average, scientifically breeding them, locating ranges and scientifically studying their diseases, parasites and grazing problems. Provision is made in the agricultural appropriation bill of this year for that purpose.

Dr. E. W. Nelson, chief of the biological survey, in urging the appropriation, told congress there are about 200,000 reindeer in Alaska, of which about three-fourths belong to the natives and about one-fourth to the government and to white owners who have started a commercial industry in reindeer growing for meat. These reindeer multiplied from an original importation of 1280 animals, made twenty-eight years ago for the benefit of the Eskimos.

What's Future to Be?
"People have asked me what the future of the industry is likely to be," said Dr. Nelson. "I have replied by asking them the question: 'If 1280 reindeer in twenty-eight years produced the present 200,000 animals, what is likely to be the increase from 200,000 animals in the next twenty-eight years?' The increase is almost unbelievable. In other words, the industry, properly handled, should have a great future."

"The Alaskan firm which has started the industry exported 1600 head to Seattle last year. They have established four small cold storage plants at points on the Alaskan coast where the reindeer can readily be driven down for slaughter to be refrigerated and loaded for shipment."

Studying Possibilities
"I have recently been studying the possibilities of the Alaskan reindeer industry when well developed. I believe Alaska contains available acreage to maintain from 4,000,000 to 5,000,000 reindeer. The estimate has been made that it would take care of 10,000,000, but I think that is too high."

"Five million reindeer would give an output of about 250,000 reindeer a year. Dressed for market, one now averages 150 pounds. Taking this weight and the present value of reindeer meat, the fully developed reindeer industry in Alaska should yield approximately \$43,000,000 a year. Reindeer have been in Alaska twenty-eight years and their increase under crude methods of handling has been almost startling."

British Movies Keep Servants Interested

LONDON — Advertisements for servants in the Times reveal that moving pictures have been introduced in the homes of the wealthy to keep the help contented. Some rich Britons have built small theatres in connection with their homes and moving picture entertainments are given every evening for the servants.

Wilder tribes of Bedouins either practice sun worship or have no religion.

Canada Brings War Papers From England

OTTAWA—All documents connected with the financial administration of Canada's army overseas have been brought to Ottawa from London, where this branch of this country's war work was conducted as a separate department.

Disbursements by the overseas paymaster-general amounted to approximately \$700,000,000, and the vouchers supporting this huge expenditure have been lodged in safe custody in the militia department here. There are more than 95,000,000 vouchers, 20,000,000 acquittance rolls supporting payments to soldiers in the field and in England, and over 5,000,000 checks.

Approximately 1800 packing cases were required to ship the documents to Canada, occupying a cubic space of 1500 feet and weighing about 300 tons.

CRIMES ARE MANY

UPPER SILESIA IS PREPARING
FOR SELF-DETERMINATION
AMIDST TERRORISM

By CARL D. GROAT
United Press Staff Correspondent
OPPEIN, Upper Silesia—Upper Silesia is preparing for self-determination amidst terrorism. The fabulously rich coal district is armed to the teeth and suffering the penalties of armament.

Murders, hold-ups and the most brutal atrocities are common. And they are becoming more so. The resident population lives in dread of violent demonstrations.

"Polish violence is unquestionably at the foot of all our difficulties," Landrat Lukaszek, German leader, told me today.

The Germans are systematically using force against us," Herr Korfanty, Polish leader, declared.

"A real clash between the two nationalities seems impossible prior to the plebiscite, but it may come between the first and second days of voting or may break out when the results have been announced," said a prominent Englishman, a member of the international commission here.

Crammed with Weapons

The British representative admitted the district was crammed with weapons.

"There is a chance for a great explosion here," he said. "In fact, I think it is inevitable."

I talked with French, German, Polish, British and American observers here. All appeared to believe that violence will come. There was some talk of sending a delegation to President-elect Harding of the United States, urging him to use his influence for saner and quieter conditions during the plebiscite.

Germans have charged Poland with sending bands across the border to perpetrate unspeakable outrages in order to influence voters against casting their ballots for Germany. Also, it was charged, the hope was that many Upper Silesians living abroad, but planning to return for the plebiscite, would be frightened from the project.

Apparently authenticated cases of rape and mutilation were presented by Germans as the work of Polish invaders.

Upper Silesians have a grim joke regarding the "Entkleidung kommission" (Disrobing commission), which is a band of robbers which steals jewelry and clothing, leaving their victims to find their way home naked.

Many Cases of Murder

Fifty-five cases of murder were reported between September and January, whereas murder was virtually unknown in the district prior to the war.

Germans charged that Polish troops, paid by Polish propagandists and the Polish Red Cross, have been scattered through the district. This is denied emphatically by Polish authorities.

While I was in Kattowitz a murder of the most brutal nature occurred only a short distance from my hotel. The next night there was a spectacular battle in which grenades and revolvers figured. There was also a series of robberies. Police were not noticeable during these disturbances.

One element which is disturbing both Germans and Poles is communism. There were many evidences of its growth in the district. Russian Bolsheviks have been as busy in Upper Silesia as they have in other parts of the world.

The Gulf Coast lines are spending 2,500,000 for new equipment. Five locomotives, \$50 freight cars and 4000 tons of eighty-five pound steel rails have been ordered. The new rail will be laid between Houston and New Orleans, replacing lighter rail now in use.

Italy May Buy Duke's Noted Exploring Craft

ROME—A campaign has just been launched in Italy for the purchase by the state as a national monument of the Polar Star, the little wooden ship in which the Duke of the Abruzzi made his famous polar explorations.

The idea has been presented in connection with the announced intention of the government to prepare a law providing for the purchase by the state of all the various battle-ships and other naval units which rendered themselves famous during the recent war. This would prevent the usual fate of their being scrapped when they are no longer sufficiently up-to-date to meet the ever-increasing demands of naval warfare.

AWAITING HIS TURN

One day a lady noticed a little boy seated on a doorstep. Going up to him she said: "Well, my little chap, how is it you are sitting outside on the doorstep, when I see through the window all the other young folks inside playing games and having a good time? Why aren't you inside joining in the fun?"

"Oh, I'm in this game all right," replied the boy. "They're playing at being married, and I'm the baby." "But what are you doing out here?" "Waiting to go in. You see I ain't born yet."

Modern Enoch Arden Takes Rival's Name

CRIPPLE CREEK—Taking the name of his wife's dead husband, William Zeisenhenné, Colorado's Enoch Arden, is today known as William Proffitt and is remarried to his former wife after an absence of almost twenty years.

While returning from work one evening in Cripple Creek, Zeisenhenné was slugged and robbed. For twelve years he was a victim of amnesia and wandered over the United States while his wife and family awaited his return.

Eight years ago he recovered his memory in a Los Angeles hospital. On his return to Denver, Zeisenhenné learned his wife, thinking him dead, had married William Proffitt. Not wishing to mar the happiness of the couple, Zeisenhenné did not explain to them his peculiar disappearance or his recovery from loss of memory.

When Proffitt died, friends notified Zeisenhenné, who was in Chicago. He came to Cripple Creek immediately and was reunited to his wife.

Zeisenhenné declared he took the name of Proffitt because his two sons had adopted that name.

During 1920 the United States exported timber, lumber and other forest products to the amount of \$200,000,000.

"Trees add the "Home Touch"

Ornamental shade trees in the front yard and the parking and fine fruit trees suited to climatic conditions here in the back lot will give your new house a distinctive "home" atmosphere—a touch that nothing else can supply no matter how fine the material or how beautiful the architectural design of your home.

Hedges, Climbing Vines and Rose Gardens add to the "homey" look.

"THE OLD RELIABLE"

O. V. Brochmann, Prop.

116 West Broadway

Glendale 701

The Evening News presents herewith an elaborate map that plainly shows the concrete roadway, recently opened, that connects this city with Los Angeles. The map also shows other roadways, the location of surrounding territory, an airplane picture of a portion of the Glendale business district, particularly at Brand and Broadway, and, in brief, presents OPPORTUNITY.

The opening of the new Glendale boulevard, for that is the name of the new highway, means the more rapid real estate development between this city and Los Angeles and, too, the further development of Glendale and its surroundings. An examination of the map will show the important position this city occupies in reference to the surrounding territory. Attractive residence lots and beautiful villa sites are available in this city and its surroundings at prices much lower than will be possible in the future.

The Evening News suggests that copies of the paper containing this map be retained and, too, that copies be mailed to eastern friends. The map gives an excellent idea of Glendale's importance and its position in reference to Los Angeles and other communities nearby. Eastern friends of the readers of The Evening News will, no doubt, be interested in receiving this map of "the fastest growing city in the United States."

The new short line highway, officially designated as Glendale boulevard, is already being extensively traveled by motorists. The route from this city is south on Brand to the city limits, then on south on Glendale boulevard across the Los Angeles river to Ivanhoe, then up and over the hills past Silver Lake until Ivanhoe avenue that is reached.

Then the Pacific Electric-Glendale railway is paralleled to Third street and there a turn to the east is made and the motorist goes through the tunnel and in on Hill street. A

more direct line could hardly be perfected.

Because of its shortness and scenic beauty, the new route is certain to prove popular, especially for the reason, too, that it does not pass through any congested districts. There is but one spot that needs real caution and that is at the Southern Pacific railroad tracks where the city lines of Glendale and Los Angeles meet.

The city council of Los Angeles has, by ordinance, established the highway to Glendale's city limits on the south as Glendale boulevard and it does away entirely with Lake Shore avenue, Glendale avenue and Ivanhoe avenue in that city and also takes in the portion of Alessandro street south of Ivanhoe avenue. Signs so designating it have already been installed.

The direct line highway was proposed several years ago, but the war and the bridging of the Los Angeles river held it back. But after long negotiations between the city of Glendale, the city of Los Angeles and the county authorities, the bridge was ordered constructed. Then America entered the war and, of course, work was halted. After the armistice was signed the long-desired improvement was resumed and now it is an accomplished fact.

The completion of the highway, experts say, automatically increases realty values in Glendale and its surroundings and it is predicted that immediately there will be increased activities along the boulevard and the so-called "back country." The route relieves congestion of traffic on the San Fernando boulevard and also provides a shorter route into Los Angeles, besides avoiding congested districts.

As suggested, the map should be retained by readers of The Evening News and they should also send copies of the paper containing it to eastern friends who, no doubt, have

heard of Glendale's remarkable population record and of the further fact that this city issued over \$3,000,000 in building permits during

the year 1920. A limited number of today's issue of the paper are available for those desiring to mail them to eastern friends.

Youths In Twenties Make Poor Husbands?

LOS ANGELES—Youths in their twenties make poor husbands, says J. F. Townsend, deputy sheriff, to whose attention come all domestic mix-ups which reach Los Angeles courts.

"After a few months of marital life, young men usually succumb to the lure of questionable pool halls and dance halls," Townsend asserted. "They find their salaries will not provide pleasure for two and they drift away from home and eventually fall prey to the failure-to-provide court, and wind up in the divorce court."

"And, to make the analysis worse so far as the Caucasian race goes, it appears that Americans, in proportion to the population, are leading Mexicans and negroes in the number of arrests for wife and child abandonment."

JUST 411 BOOKS, FICTION AND NON-FICTION, ADDED TO LIBRARY

Complete List of New Volumes Placed on Shelves Since Last July Is Given to Public

A total of 411 books, both fiction and non-fiction, have been added to the Glendale public library since July, 1920, it is announced today.

Of this total, 163 are fiction and the remainder, 248, are non-fiction. All are in the adult department.

Mrs. Alma Danford, the librarian, states that the weekly book reviews published in The Evening News are proving of interest to a number of people, judging by the calls she has at the desk for volumes given reviews.

The complete list of the books added to the library since last July follows:

Adult Non-Fiction

"Accepting the Universe," Burroughs.
"Accountancy and Business Management," (7 volumes), American Technical Society.

Woglumi Threatening To Invade U. S. Next

WASHINGTON—The next destructive invasion of America, government officials forecast today, may come from Aleurocanthus Woglumi. The invasion already has spread from India to Cuba and Central America, entomologists said, devastating citrus orchards. Aleurocanthus Woglumi is a small black fly easily routed by a soap emulsion barrage, according to the experts.

Favor Measure For Payment To Railroads

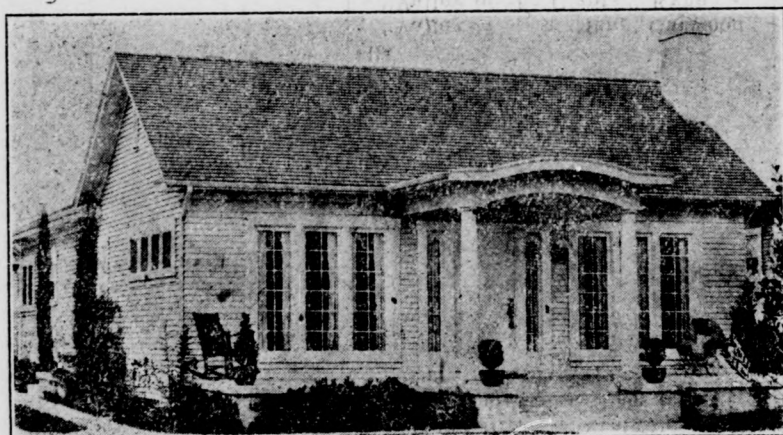

WASHINGTON—The senate commerce commission has favorably reported the Winslow house bill providing for partial payments to the railroads of money due them from the government for the period following federal control in the same form as it passed the house.

Man's Only Brother Died 125 Years Ago

LONDON—Asked in a Brussels police court whether he had any relatives to support him, a destitute man of eighty-three said he was without kin, his only brother having died 125 years ago. Pressed for details, he explained that his father was married in 1792 and had a son who died three years later. The father married a second time in 1836, at the age of sixty-two.
